EDUCATION

Bachelor of Science, Major in Computing and Software Systems **Jul 2023 - Dec 2026 (Expected)**

The University of Melbourne · Final-year student

- Melbourne International Undergraduate Scholarship (2023)

EXPERIENCE

Software Engineer Intern **Dec 2025 - Mar 2026**

Military Commercial Joint Stock Bank (MB Bank) · Hanoi, Vietnam

- Used AI coding assistants (Claude, LLMs) daily on a large shared production codebase, reviewing and validating generated code and catching incorrect logic and edge cases before merge, boosting development speed by 35%
- Built a new API Validation Check feature end-to-end in Java/Spring Boot (REST), from requirements through to production, enabling secure data storage and retrieval and cutting validation errors by an estimated 40%
- Upgraded the Loan LD API (Corporate Lending System) against a relational database backend through code enhancements and rigorous testing, supporting a production release that increased online disbursements by 15%
- Bridged live communication between an international strategy advisor and a branch deputy director during a critical dev-ops handoff review, demonstrating strong cross-team collaboration

PROJECTS

BumpIn: AI Assistant for Backstage **Oct 2026**

Affinda AI Innovation Challenge 2026 (3rd Place Overall, Best Track 1) · Melbourne, VIC

- Built in a 4-person team to handle the documents of 60 artists and 40 food vendors (riders, certificates, emails); pitched to about 30 students and 4 Affinda judges and shipped phone and laptop apps within 48 hours
- Built the artist-side Python backend and the phone app; OCR and an LLM extract rider items from PDFs and photos at 100% recall and 97% precision on 65 synthetic test lines
- Connected a live Gmail API watcher that feeds incoming emails into the app, alerting the phone in a median 1.6s

GovAssist: Multi-Agent Voice Assistant for CSHC **Oct 2026**

Real client project (RealThing AI), University of Melbourne · Melbourne, VIC

- Core backend architect (5-person team): 1 Manager agent and 5 specialist agents deliver a government service, the Commonwealth Seniors Health Card, by voice to low-vision users (Python, FastAPI)
- Delivered 2,000+ automated backend tests, fully working CI/CD pipelines and a working Android app; redesigned a flow that breached the government site's terms of use into a human-in-the-loop walkthrough

Sport Personal Coach: RAG Fitness Agent **Mar 2026 - Present**

Personal project · Solo build · Melbourne, VIC

- Built a fully functional RAG fitness agent that I use for every training session, 4-5 days a week
- Achieved juggling +100%, weak foot +200%, weekly goals and assists +70%, and up one division since last season

ndAI: Local Semantic Firewall for AI Prompts **Sep 2026**

Forward: AI in Business Hackathon · Melbourne, VIC

- Built a local firewall that screens outgoing AI prompts and files for confidential company data (allow, warn, rewrite or block) before they reach ChatGPT, Claude or Gemini; top committer (29 of 58) in a 4-person team in 36 hours
- Owned the policy engine and Cloud Run deployment; 96.2% precision, 73.5% recall, 34.9ms latency

LEADERSHIP & ACTIVITIES

- **Competitive Cheerleader, Legacy Team, Southern Cross Cheer Club (2023 - 2025):** the highest level
- 2024 and 2025 National Champions, Gold Medals, International Open Large Co-ed Level 7 division
- 2025 Grand Champion with a partial paid bid to Worlds
- Coached a Hanoi school team to first place at the 2022 Doan Thi Diem Cheerleading Championship

ACHIEVEMENTS

- 3rd Place Overall and Best Track 1, Affinda AI Innovation Challenge 2026 (BumpIn)
- Best Product, CISSA Codebrew 2026 4-day hackathon (Voyager)
- Top 16% (33rd of 206) in COMP30024 Cascade Tournament (Agent AP)

TECHNICAL SKILLS

- **Programming & Backend:** Python, Java, TypeScript, JavaScript, SQL, FastAPI, REST APIs, Spring Boot, Claude Code
- **AI & LLM Development:** Multi-Agent Systems, RAG, LLM APIs, OCR, Embedding Search, Prompt Engineering
- **Data, Frontend & Cloud:** SQLite, MySQL, scikit-learn, pytest, React, Docker, AWS EC2, Google Cloud Run, Git, CI/CD
- **Languages:** English (fluent), Vietnamese (native)
